

<b>Run 1</b>		
<b>Function Name</b>	<b>Test Case Name</b>	<b>Test Result</b>
Backend.addNewUser	usersVectorNotEmptyAfterAdd	Passed.
Backend.addNewUser	doNotAddDuplicateUser	Passed.
Backend.updateUser	testUpdateUser	Passed.
Backend.refundUser	testRefundUser	Passed.
Backend.deleteUser	testDeleteUser	Passed.
Backend.addNewItem	testAddItem	Passed.
Backend.updateItem	testUpdateItem	Failed. New bid amount needs to be higher than previous bid amount. New bid should be set to 0.01 instead of 0.00
Backend.deleteItem	testDeleteItem	Failed. Given username should be padded with spaces, and left justified.
Backend.endBid	testEndBidWithoutBidder	Passed.
Backend.endBid	testEndBidWithBidder	Failed. A floating point error made an if statement fail.
FileParser.writeFile	testWriteFile	Passed.
FileParser.getFileInfo	testGetFileInfo	Passed.
User.User	testUserConstructor	Failed. When given just the username, the substring function goes out of bounds and is not needed.
User.toString	testUserToString	Passed.
Item.Item	itemAdvertise	Passed.
Item.Item	itemBid	Passed.
Item.Item	itemBlank	Passed.
Item.isEndAuctionDate	auctionDone	Passed.
Item.isEndAuctionDate	auctionNotDone	Passed.
Item.updateDaysRemaining	testUpdateDaysRemaining	Passed.
Item.toString	testToString	Passed.
Run.main	testMainFunction	Failed. Not all transaction types were in the test transaction file. Add credit and Refund were missing.
Backend.addNewUser	decisionCoverage	Passed.
Backend.addNewUser	loopCoverage	Passed.
